

EUROSPAN

BEDDINGS

The 100% natural origin of the Eurospan bedding makes it an ecologic waste, which, after being used and stocked, can be easily disposed. This confirms the company sensitivity towards the safeguard of the environmental balances.

The Eurospan shavings derive exclusively from virgin timbers of silver fir, a valuable timber which undergoes the best processing phases in order to ensure the lack of dusts and the creation of a leading product on the European market. After facing all processes necessary for the dust removal and the sawdust sieving, the product is pressed in bales and placed on pallets.

ANALYSES PERFORMED FOR CHC (PCP), PCP AND HEAVY METALS

The content of CHC HCB, α -HCH, β -HCH, γ -HCH, δ -HCH, Heptachlor, trans-Heptachlor Epoxide, α -Chlordane, γ -Chlordane, α -Endosulfan, Aldrin, Endrin, o,p1-DDE, p,p1-DDE, Dieldrin, o,p2-DDD, p,p-DDD, o,p1-DDT and p,p1-DDT and also the 7 PCB (PCP-28, PCP-52, PCB-101, PCB-118, PCB-153 and PCB-138) and PCP-180 detected in the beddings are below the limits of determination (u.B. = < 0.001 mg/kg). Likewise, pentachlorophenol (PCP) could not be detected in the interval (u.B. = < 0.001 mg/kg).

HEAVY METALS IN THE BEDDING

- Lead (Pb) u.B. (limit of quantification = 10 mg/kg)
- Cadmium (Cd) 0.1 mg/kg (limit of quantification = 10 mg/kg)
- Chromium (Cr) u.B. (limit of quantification = 2 mg/kg)
- Copper (Cu) u.B. (limit of quantification = 0.5 mg/kg)
- Nickel (Ni) u.B. (limit of quantification = 1.25 mg/kg)
- Zinc (Zn) 9.65 (limit of quantification = 0.2 mg/kg)
- Mercury (Hg) u.B. (limit of quantification = 0.02 mg/kg)

THE BEST WAY TO USE PORRINI BEDDING

For best results and performance from your Porrini shavings, put down a layer of bedding that is at least 15 cm deep – the ideal depth is 20 cm. When bedding down for the first time in a stable measuring 12 m², use 7 – 8 bales to ensure that the bed is deep enough for your horse and reduce the amount of shavings that need to be added later on.

How to prepare your stable:

Spread an even layer of shavings of at least 15 cm deep over the floor of a 12 m² stable. Over the next 12 - 14 days remove the wet shavings with a shovel and bank up against a wall of the stable to enlarge the bed and let the ammonia evaporate. If necessary, add clean shavings wherever a space has been created. The dry bedding that had been banked up against the stable can be reused after 12 - 14 days, reducing the need to top up by adding new shavings. Make sure that the top layer of bedding is always dry.

This method ensures that less ammonia is produced, provides optimum insulation, and creates a thick enough bed to reduce the risk of your horse injuring itself when it lays down or gets up. It also cuts down the amount of time needed to muck out the stable.

PORRINI HORSE FEED, THE BEST FOR YOUR HORSE

The mission of Porrini is to provide a range of feeds that meet the best dietary needs of horses. Each animal has its own distinct physical characteristics and its own needs based on the activities performed. This is why the nutritionists at Porrini have developed four product ranges that meet the nutritional requirements of horses at any age and throughout their sports activities. IN FORMA

Developed specifically for sports horses that need a balanced and healthy diet.

Light - NCL Equini All Fib

ALLEVAMENTO

The Allevamento line responds to the particular nutritional needs of broodmares and foals.

Mediallevamento - Puledri 6/24

SPECIALITÀ

Each horse is unique and has specific needs and requirements. This is why we have formulated a specific nutritional program for demanding horses.

Avena nera - Orzo fiocco

MASH

Help your horse to recharge their batteries and rehydrate after a competition or long journey.

Mash

GREY POWER

Grey Power ensures maximum performance for competing horses.

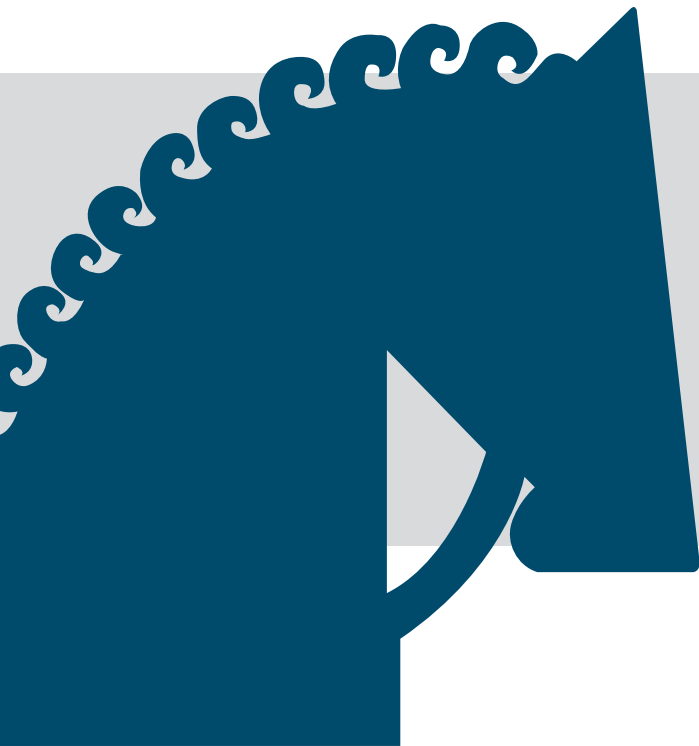

Grey Power

FUORICLASSE

It provides all the essential nutrients required to produce energy during sports challenges.

**Multifioc - Nutrifioc - Grand Prix
NCL All Fib Sport Plus**

THE TRANQUILLITY OF A REGENERATING AND HEALTHY SLEEP

The beddings of Porrini are the jewel in the crown of its offer.

This is a high quality natural product, derive exclusively from virgin timber of selected silver fir, freed from enzymes and dust.
