

GOLD SHOW

Specially designed for Arab show horses, Gold Show feed provides the right amount of vitamins and minerals. The high sunflower seed content ensures an optimum source of fat and improves chewing.

Created with a recipe that guarantees explosive energy for show horses involved in intense competition that require a rich, nutritious diet.

When fed Gold Show, horses are particularly responsive and benefit from instant energy. The special formula helps to maximise the Arab horse's perfect conformation while improving muscle development without overdoing it.
